## **DETAILED ACTION**

### ***Drawings***

The corrected or substitute drawings were received on January 27<sup>th</sup>, 2003.

These drawings are acceptable.

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. Claims 1, 4 and 9 recite the limitation that the mouthpiece has the "size of a cardboard mouthpiece" in line 4. However, it is not clear to Examiner what "size" that type of mouthpiece encompasses. Absent language regarding length (i.e. "the tubular part of the mouthpiece exceeds 40mm", as taken from page 3 of the instant specification), this recitation is vague and unclear.

Also, regarding claims 1, 4 and 9, it is not clear which element has a "total length that exceeds that of said tobacco rod". It appears that Applicant intends to recite that the cylindrical "filter" element has a length that exceeds the tobacco rod. However, this would not appear to be consistent with the instant specification which discloses "the

length of the said mouthpiece exceeds that of the tobacco rod" (page 3 of the instant specification). Clarification is requested.

4. Additionally, claims 1, 4 and 9, recite the limitations "the tubular portion open flow area" and "compressive load"; however, there is insufficient antecedent basis for these limitations in the claim.

#### ***Allowable Subject Matter***

5. Claims 1-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

#### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
